Never say these things in a job interview

Here are 7 things you should never say in a job interview:

_____ 1

If you don't know your potential salary, you shouldn't ask about it too early in the interview. If you do this, the interviewer will think you are only interested in money and nothing else. Employers want people who are a good match for the position that they are offering. Salary negotiations should wait till the end of the interview.

_____ 2

Companies do not want to hire someone who doesn't have any confidence. So, it's not always good to be honest. If you are nervous, you should try not to show it.

_____ 3

If the interviewer asks about your weaknesses, you should not reply with a standard response that sounds like a hidden strength. Experienced interviewers know this trick. Instead, tell the employer about a real weakness, but a weakness that isn't so important for the job.

_____ 4

Don't mention how much you like some of the company's benefits, such as free snacks. The interviewer will think that you do not care about the success of the company.

_____ 5

Try not to show that you are desperate for the job. Desperation is a sign of weakness.

_____ 6

Never criticize a former boss or company. It's not classy, and it will make you sound negative.

_____ 7

When the interviewer asks if you have any questions, don't say "no." This makes you look unprepared for the interview or not interested in the job or company.
