

MEMORANDUM OF UNDERSTANDING

between

Zhytomyr State Technological University
Faculty of Mining and Ecology
103, Chudnivska str., 10005 Zhytomyr, Ukraine

and

Technische Universität Bergakademie Freiberg
Faculty of Geoscience, Geotechnics and Mining
Akademiestraße 6, 09599 Freiberg, Germany

§ 1

The following MOU based on a mutual interest and an active dialogue and will be the basis for a long-standing and trustful cooperation of the two universities. Specific details of any activity between the universities shall be set forth in a bilateral Supplemental Letter of Agreement. If both universities manifest their further interest, this MoU can result in a separate cooperation contract between the universities.

§ 2

The objectives of this MOU shall include, but not be limited to the following:

1. the organization of joint academic and scientific activities,
2. the exchange of academic staff for lectures, conferences and research,
3. the exchange of students for courses and specialized programs, and
4. the exchange of publications and other materials of common interest.

§ 3

The cooperating partners shall apply to the national governments or other suitable institutions for funding to support their collaborative activities.

§ 4

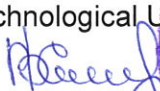

Both universities nominate a representative for the further negotiations. At Zhytomyr State Technological University the coordinator is Assoc. Prof. Sergii Kalchuk. At Technische Universität Bergakademie Freiberg the coordinator is Prof. Carsten Drebenstedt.

§ 5

This MOU shall become effective on the date that it is signed by the representatives of both universities. However it does not constitute legal responsibilities or obligations.
